RE: Interim Tribal Presidency and Emergency Leave—Littlewolf Capitol Building

The Northern Cheyenne Tribal Council has removed Gene Small from the position of Tribal President. I have been appointed Interim Tribal President until further notice.

Because of the current situation at the Littlewolf Capitol Building, and due to concerns regarding the safety of our employees and report of at least one assault on an employee, all employees assigned to the building are granted emergency leave, effective immediately, until further notice.

Employees should not report to or enter the Littlewolf Capitol Building while this emergency leave is in effect. Employees that remain at work will not be paid for their time.

The building will remain closed to employees until it is determined that the workplace is safe. Additional instructions regarding work assignments and the resumption of normal operations will be provided when available.

Thank you for your cooperation and understanding.

LITTLE WOLF AND MORNING STAR – Out of defeat and exile they led us back to Montana and won our Cheyenne homeland that we will keep forever.
